

# Midland Road Housing Scheme

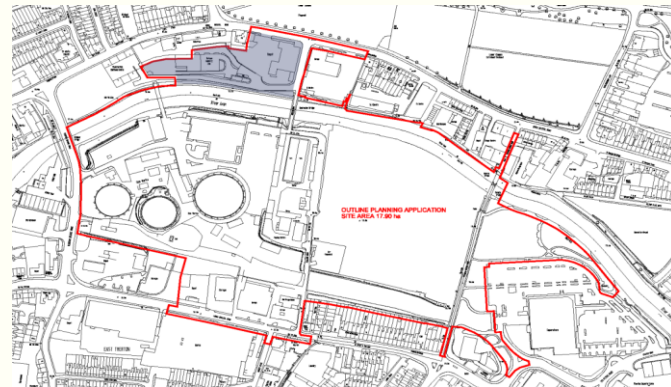

# Redevelopment

The recycling site was identified for redevelopment as part of the Bath Western Riverside regeneration project in 2006

It has full planning approval for 176 new affordable and market homes.

Once an alternative recycling site has been confirmed, we will start building the first phase of affordable homes for social rent with the remaining affordable and market homes starting once the remainder of the site has been fully vacated.

# Housing Layout Plan

Phase one: 39 Affordable Homes  
A mix of 1, 2 and 3 bed homes for social rent
